

Expert Witness Training 2018

Excellence in Report Writing

Excellence in Report Writing examines the role and duties of an Expert Witness, with reference to the new High Court procedures. It allows both new and experienced experts to observe what lawyers and the courts want from an expert witness report. Delegates learn from our skilled lawyers how to assess others' reports and in turn to assess their own. Working from our sample format, delegates will create their own report template pertinent to their profession.

Courtroom Skills Training

The Courtroom Skills Training is an intensive one-day highly practical and experiential course. We examine the theory, practice and procedure of giving evidence. Delegates are cross-examined on a case study which they prepare from their field of expertise. Our experienced trainer will provide constructive feedback to each delegate on their witness box presentation. Delegates receive a comprehensive workbook and aide memoir.

Cross-Examination Skills

The proven benefits of this advanced training day will be reflected in the marked increase in confidence and effectiveness of each individual as an expert witness. Delegates learn how to combat cross-examination techniques and gain mastery of their delivery. Each cross-examination will be video recorded, a copy of which delegates will take for further learning at the end of the course. You must complete a day of Courtroom Skills Training prior to taking this course.
